

Dear friends,

9th Multilingual Festival through its digital activities encourages connection and interaction. Having already carried out 8 years of activities, we announce the new program of the 9th Multilingual Festival.

As part of the SLYMS ERASMUS PLUS YOUTH research program, it invites its participants and volunteer partners to capture previous successful actions and, in general, to register their participation throughout the previous period of 9 years.

Our goal is to create an electronic cultural portfolio of the Festival of Multilingualism, able to certify academically, by the preparation of each participation.

Multilingual Festivals include workshops, music events, presentations on languages and cultures, open discussions and innovative initiatives on issues of intersection of languages and cultures, art and culture, multilingual narratives - performances as well as innovative actions in education and learning.

Non-language Communities, educational Institutions and Institutions with proposed intercultural and linguistic material will compile from now on, the cultural portfolio of their participation in the Multilingual Festivals, so that it is posted in the repository of the Festival and used by the Institutions in each case.
