

Call for Proposals for Sub-grants for Pilot Areas in Greece

Med Pearls project intends to set up a network of 26 Slow Tourism products across the 6 project countries. These products all over the Mediterranean are the so-called ‘PEARLS’ and will share similar characteristics, following the Slow Tourism spirit and offering equivalent experiences in the different countries, although fully adapted to each local context. Thus, the Mediterranean region will become a unique platform to enjoy Slow Tourism experiences for international visitors looking for genuine tourism experiences at a reduced pace.

The project Med Pearls is issuing calls for proposals for sub-grants, aimed at the creation of new Slow Tourism products in the pilot areas of the project addressed to Destination Management Companies (DMCs) or Incoming Travel Agencies.

Greece opens the Call of Proposals for Sub-grants for Imathia-Veria and Pieria -Olympus pilot areas. The call will be open from 5/07/2021 until 30/09/2021 for DMCs or Incoming Travel Agencies which comply with the terms described in the invitation below.
