Time-limit for receipt of projects or requests to participate

Date: **16.4.2013** - 14:00

Language(s) in which projects or requests to participate may be drawn up

Greek.

Short description of the project

The contest requires the redesign of the historic Eleftherias Square, in the city center of Thessaloniki. The square today is used for car parking, but through its redesign the Municipality of Thessaloniki aims to convert the place into an area of green and recreation that will be offered back to pedestrian use, as well as to transform the square into an entrance/gate of the city via the seafront. The project includes the increase of the existing green and the emergence of the historic memories related to the Square through bioclimatic design.

Other criteria for the evaluation of the proposals include the improvement of life quality in the city center, the revival of the surrounding area, innovative design for public furniture and facilities, accessibility, construction and maintenance cost.

Awards

(excluding VAT)

1st Award : 13 961 EUR (architectural design 9 914 EUR, landscape design: 2 023 EUR, MEP design: 2 023 EUR)
